PROJECTS

model findr (Ruby on Rails, Backbone) | [live](#) | [github](#)

Flickr style social network, connecting photographers to models

- Allows users to have a portfolio of their work to display.
- Has a Backbone front end, making navigating through the website snappy and a better experience for the user.
- An autocomplete search bar in order to find other people by either city or username

Tetris (Javascript, CSS) | [live](#) | [github](#)

Classic arcade game redesigned from scratch

- Uses Javascript in order to move components around at a fast and fluid pace
- Implements original game rules and representation so that the experience has a classic feel to it
- Points awarded to the player, providing an incentive to achieve a higher score and compete with other players

Yet To Be Created (Javascript, CSS) | [live](#) | [github](#)

Classic arcade game redesigned from scratch

- Uses Javascript in order to move blocks at a fast and fluid pace
 - Implements original game rules and representation so that the experience has a classic feel
 - Points given to the player for every line cleared
-

SKILLS

Ruby, Rails, Javascript, jQuery, Backbone, HTML, CSS, SQL, git, TDD

EXPERIENCE

Co-Founder and Dispatch Manager - San Leandro Taxi Cab (2010 - 2014)

- Utilized social media and booking by website to increase volume of calls by 30% after implementation.
 - Helped found a taxi / limousine / medical transportation family company servicing thousands of clients a year
-

EDUCATION

Web Developer - App Academy (Winter 2014-2015)

- Immersive software development course with focus on web development and agile methodologies. Strong emphasis on code quality and design patterns.
